

# V&A RESEARCH REPORT 2010

## MESSAGE FROM THE DIRECTOR

The V&A Research Report 2010 records books, journal articles and reviews, conference papers, web-based projects, exhibitions and media contributions completed by V&A staff and their collaborators during 2010. These range across the disciplines of the history of art, architecture and design, social and cultural history, the history of the performing arts, conservation, museology and museum education, and information and library studies. The Report reflects the focussed object-based research that underpins the V&A's Public Programme and FuturePlan developments.

It also lists the academic affiliations, committee memberships and advocacy work undertaken by V&A curators, conservators and educators in the UK and beyond, providing an impressive record of the Museum's contribution to national and international projects and debates.

Entries in German, Italian, French, Spanish and Japanese, as well as activities in China, India and the Middle East emphasise the international nature and reach of the work of the V&A.

Beth McKillop  
Acting Director
